Journal of Hydrology

Contents

Research Papers

Comparison of hydrogeochemical logging of drilling fluid during coring with the results from geophysical logging and hydraulic testing
Example of the Morte-Mérie scientific borehole, Ardèche–France, Deep Geology of France Programme
L. Aquilina, C. Eberschweiler, J. Perrin and Deep Geology of France Team 1

Importance of the vertical component of groundwater flow: a hydrogeochemical approach in the valley of San Luis Potosi, Mexico
J.J. Carrillo-Rivera, A. Cardona and D. Moss 23

The optimum order of a Markov chain model for daily rainfall in Nigeria
O.D. Jimoh and P. Webster 45

The impact of agricultural land use on stream chemistry in the Middle Hills of the Himalayas, Nepal
R. Collins and A. Jenkins 71

Transient modelling of water-table variation in a floodplain wetland, Narborough Bog, Leicestershire
C. Bradley 87

Comparative study of methods of preparing hydraulic-head surfaces and the introduction of automated hydrogeological–GIS techniques
R.B. Salama, L. Ye and J. Broun 115

A capacitive soil moisture sensor
H. Eller and A. Denoth 137

Modelling hydrologic processes using a biophysically based model–application of WAVES to FIFE and HAPEX–MOBILHY
L. Zhang, W.R. Dawes and T.J. Hatton 147

The penetration depth in modelling natural groundwater flow
N.H.M. Stolwijk, W. Zijl and R. Boekelman 171

A linear spatially distributed model for a surface rainfall-runoff system
G.-T. Wang and S. Chen 183

One-dimensional virus transport in homogeneous porous media with time-dependent distribution coefficient
C.V. Chrysikopoulos and Y. Sim 199

Soil water and temperature patterns in an arid desert dune sand
R. Berndtsson, K. Nodomi, H. Yasuda, T. Persson, H. Chen and K. Jinno 221

Hydrochemistry and nutrient cycling in Yalgorup National Park, Western Australia
M.R. Rosen, L. Coshell, J.V. Turner and R.J. Woodbury 241

Application of an empirical infiltration equation in the SMAR conceptual model
B.Q. Tan and K.M. O'Connor 275

Use of factor analysis to investigate processes controlling the chemical composition of four streams in the Adirondack Mountains, New York
C.D. Evans, T.D. Davies, P.J. Wigington Jr., M. Tranter and W.A. Kretser 297

Uncertainty analysis of flood quantile estimates with reference to Tanzania
S.H. Mkhandi, R.K. Kachroo and S.L. Guo 317

Nonparametric kernel estimation of low flow quantiles
S.L. Guo, R.K. Kachroo and R.J. Mngodo 335

Rainfall interception near a forest edge
W. Klaassen, H.J.M. Lankreijer and A.W.L. Veen 349

Dependence of rainfall interception on drop size: 1. Development of the two-layer stochastic model
I.R. Calder 363
Dependence of rainfall interception on drop size: 2. Experimental determination of the wetting functions and two-layer stochastic model parameters for five tropical tree species
I.R. Calder, R.L. Hall, P.T.W. Rosier, H. G. Bastable and K.T. Prasanna 379
Dependence of rainfall interception on drop size: 3. Implementation and comparative performance of the stochastic model using data from a tropical site in Sri Lanka
R.L. Hall, I.R. Calder, E.R.N. Gunawardena and P.T.W. Rosier. 389
